

## **WHEELS INDIA LIMITED**

### **QUALITY, SAFETY, OCCUPATIONAL HEALTH AND ENVIRONMENTAL POLICY**

Wheels India Limited is committed to manufacture wheels, wheel & tyre assembly, air suspension, fabricated & machined parts by ensuring quality, safety, occupational health and environment through risks and opportunities assessment and appropriate actions, considering the needs of all the stake holders.

We strive to:-

- be a market leader globally by leveraging innovative technologies and manufacturing processes to provide high quality products to customers.
- ensure customer satisfaction through timely delivery of products and services.
- carry out continual improvements in product /process technology and work environment to offer better value added products.
- comply with all applicable obligations, legal and other requirements.
- conserve natural resources.
- prevent environmental pollution by reducing negative impact, recycling, reuse and replacement.
- eliminate hazards and reduce occupational health and safety risks.
- prevent injury and ill health through total employee involvement.
- consult and participate with workers and workers' representatives to improve occupational health and safety performance.
- provide appropriate resources and training to achieve the set objectives and targets for continual improvement.
- communicate this policy to employees and other interested parties.
